

**You Love Building Bridges?
Between Challenges and Solutions?
Between Doers and Skeptics?**

**(Senior) Project Manager and
Consultant Data Management (all
genders)**

Parsionate advises companies, unlocks their potential and works with them to invent entirely new solutions – all on the basis of data and what it has to offer. We call this data leadership. We leverage our expertise to focus on the benefits and successes we generate for our customers and partners, which is exactly why Parsionate works end-to-end: we are by our customers' side from strategy development to full technological implementation. All this is what our more than 200 experts are working on at our Parsionate locations across Europe. Why not join the team?

What you can expect:

- You take responsibility for the management of projects in the context of data & analytics, such as MDM or PIM
- You ensure project success and the resulting benefits for our customers are in line with project goals and expectations
- You bring your passion to the planning, controlling and monitoring of projects and coordinate existing dependencies
- You are responsible for proactive project communication with customer and internal stakeholders up to C-level and confidently communicate even on challenging topics
- You contribute your expertise in active risk management and the establishment of risk avoidance strategies
- You are responsible for resource management in the project and also involve external partners and experts as required
- You are proficient in agile and classic project methods, coordinate the appropriate ones for the project with the customer and ensure compliance with them

Your skillset:

- You have several years of professional experience in the management and consulting of IT projects, ideally in the field of data and analytics
- You have knowledge in agile and classic project management and top that with a certification
- You would like to bring your experience in managing complete IT project cycles, preferably in the context of the introduction of standard software solutions for MDM, to parsionate
- With your strong personality and your distinctive understanding of technology, you are a confident presence
- Your good presentation and organizational skills as well as structured work and proactive problem solving are your strengths
- A high sense of quality and responsibility is a matter of course for you
- Travel within Europe is not a showstopper for you
- You speak German and English fluently

- You use your technical expertise in Master Data Management (MDM) in consulting our customers, in the moderation of workshops on requirements management and in conceptual designs
