

Are you passionate about data, machine learning, analytics and AI? Do you like to stay up to date with the latest technological developments? Are you interested in different projects in the area of data & analytics and would you like to pass on your knowledge? Then we look forward to getting to know you.

Senior Data Scientist (all genders)

What you can expect:

- You will take over technical responsibility in the area of AI and Analytics at Parsionate
- You will be responsible for the technical leadership of the team, share your knowledge and further develop the team

Your skillset:

- You have successfully completed your studies in computer science, mathematics, physics or a comparable subject
- You have several years of practical experience as a data scientist

- You have access to innovative solutions in data science, cloud and data storage
- You work with data engineers and analysts to understand customer requirements and develop appropriate solutions
- Your tasks include advising our customers on suitable AI use cases as well as selecting suitable approaches and methods
- An agile working environment in which you decide on your potential tasks
- You support the sales team in presales situations in your role as topic manager and thus win new projects
- You actively shape the ongoing development of the service portfolio in the area of AI
- You have experience in solution design and can clearly communicate the benefits of projects
- You know and use the current technologies for operating data science solutions in the cloud (Docker, Kubernetes)
- You have experience with common data science stacks (Python, Tensorflow, Keras, Sklearn or MLflow) and knowledge of common software tools (Git, PyCharm)
- You have in-depth knowledge of current programming concepts, such as design patterns or data structures
- When you think of a CD, you don't first think of an outdated storage medium
- You are open, communicative, enjoy working in a team and enjoy sharing knowledge
- You have very good written and spoken German and English skills

Über Parsionate

Parsionate berät Unternehmen, hebt ihre Potenziale oder erfindet gemeinsam mit ihnen ganz neue Lösungen. Alles auf Basis von Daten und deren Möglichkeiten. Wir nennen es Data Leadership. Mit unserer Expertise konzentrieren wir uns auf den Nutzen und die Erfolge, die wir für unsere Kunden und Partner generieren. Genau deshalb arbeitet Parsionate „End-to-End“ – also von der Strategieentwicklung bis hin zur vollständigen technologischen Umsetzung. Daran arbeiten über 200 Expertinnen und Experten an unseren Parsionate-Standorten in Europa. Werde ein Teil davon.
