

**Working in Technology Means
Expanding the Imaginations of Your Clients.
And the Ones of Your Company**

(Senior) Integration Consultant (all genders)

Parsionate – Part of Accenture empowers businesses and unleashes their potential to create innovative new solutions. The key: data and all it has to offer. From strategy development to large-scale technological implementation, Parsionate works end-to-end on the client's side. This is Data Leadership.

What you can expect:

- You will analyze and design integration scenarios for various use cases in the cloud or on-premise
- You will design and develop complex integration solutions using our portfolio of integration solutions, including Informatica IDMC, Talend, and Apache Camel
- You will select and implement the most suitable platform in the cloud or on-premise
- You will conceptualize, realize, and implement new interfaces and data pipelines, driving continuous development within the integration platform
- You will collaborate with various stakeholders within projects

Your skillset:

- You have a degree in computer science or equivalent education. You have several years of professional experience
- Your interest lies in solving complex tasks, and you possess conceptual as well as analytical thinking skills
- You have proven experience with agile methods and can capture user requirements and translate them into design/code
- Extensive experience in Data Integration and/or Enterprise Application Integration with technologies like Talend, Informatica IDMC, Workato, SAP Integration Suite, Apache Camel, or similar solutions
- You have solid knowledge in integration architectures such as API, ESB, Event Processing, and ETL
- You have in-depth knowledge in implementing data architectures with SQL (SQL Server, Oracle, MySQL) and NoSQL. Ideally, you have experience in project management
- You have strong communication skills in German and English (written and spoken)
- You are willing to travel across Europe
