

You Love Building Bridges? Between Challenges and Solutions? Between Doers and Skeptics?

Business Consultant Data Management (all genders)

Parsionate advises companies, unlocks their potential and works with them to invent entirely new solutions – all on the basis of data and what it has to offer. We call this data leadership. We leverage our expertise to focus on the benefits and successes we generate for our customers and partners, which is exactly why Parsionate works end-to-end: we are by our

customers' side from strategy development to full technological implementation. All this is what our more than 200 experts are working on at our Parsionate locations across Europe. Why not join the team?

What you can expect:

- You take responsibility for the design and implementation of Master Data Management (MDM) solution based on selected software products for our customers
- You are passionate about developing enterprise-wide data models for master data as well as data quality requirements for master data together with our customers
- You are responsible for the design of consolidation and harmonization processes for master data (e.g. matching and merging)
- Together with your team you conduct customer workshops
- In the parsionate team you take responsibility to create real added value for our customers

Your skillset:

- You have experience as an IT consultant, preferably in the area of data and analytics
- You have knowledge in one or more data management solutions like Informatica, Riversand, Contentserv, Stibo, TIBCO or Ataccama
- You are proficient in the implementation of one of the mentioned data management solutions
- You have a strong personality and a strong understanding of technology and are a confident leader
- Your communication and presentation skills are outstanding
- A high sense of quality and responsibility is a matter of course for you
- Travel within Europe is not a showstopper for you
- You speak German and English fluently
