

# **You Love Building Bridges? Between Challenges and Solutions? Between Doers and Skeptics?**

## **Business Consultant Data Management (all genders)**

Parsionate – Part of Accenture empowers businesses and unleashes their potential to create innovative new solutions. The key: data and all it has to offer. From strategy development to large-scale technological implementation, Parsionate works end-to-end on the client's side. This is Data Leadership.

## What you can expect:

- You take responsibility for the design and implementation of Master Data Management (MDM) solution based on selected software products for our customers
- You are passionate about developing enterprise-wide data models for master data as well as data quality requirements for master data together with our customers
- You are responsible for the design of consolidation and harmonization processes for master data (e.g. matching and merging)
- Together with your team you conduct customer workshops
- In the passionate team you take responsibility to create real added value for our customers

## Your skillset:

- You have experience as an IT consultant, preferably in the area of data and analytics
- You have knowledge in one or more data management solutions like Informatica, Riversand, Contentserv, Stibo, TIBCO or Ataccama
- You are proficient in the implementation of one of the mentioned data management solutions
- You have a strong personality and a strong understanding of technology and are a confident leader
- Your communication and presentation skills are outstanding
- A high sense of quality and responsibility is a matter of course for you
- Travel within Europe is not a showstopper for you
- You speak German and English fluently
