

**Working in Technology Means  
Expanding the Imaginations of Your Clients.  
And the Ones of Your Company**

## **Integration Specialist "Talend" (m/w/d)**

Parsionate advises companies, unlocks their potential and works with them to invent entirely new solutions – all on the basis of data and what it has to offer. We call this data leadership. We leverage our expertise to focus on the benefits and successes we generate for our customers and partners, which is exactly why Parsionate works end-to-end: we are by our customers' side from strategy development to full technological implementation. All this is

what our more than 200 experts are working on at our Parsionate locations across Europe.  
Why not join the team?

## What you can expect:

- You will support our clients in integrating their systems with the latest integration technology from Talend
- You will design and develop interface scenarios in the cloud or on-premise
- You will implement integration solutions using Talend and/or other suitable integration platforms
- You will collaborate with various stakeholders within projects

## Your skillset:

- You have a degree in computer science or equivalent training as an IT specialist
- Your interest lies in solving complex tasks, and you possess conceptual as well as analytical thinking skills
- You have initial experience in Data Integration and/or Enterprise Application Integration with technologies like Talend, Informatica IDMC, Workato, SAP Integration Suite, Apache Camel, or similar solutions
- You have gained initial experience with integration architectures such as ETL, API, ESB, or Event Processing
- Knowledge of Java and SQL is advantageous
- You are fluent in English both spoken and written; knowledge of German and other EU languages is advantageous
- You are willing to travel depending on project requirements
