

**Working in Technology Means  
Expanding the Imaginations of Your Clients.  
And the Ones of Your Company**

## **Technical Consultant Akeneo (all genders)**

Parsionate advises companies, unlocks their potential and works with them to invent entirely new solutions – all on the basis of data and what it has to offer. We call this data leadership. We leverage our expertise to focus on the benefits and successes we generate for our customers and partners, which is exactly why Parsionate works end-to-end: we are by our customers' side from strategy development to full technological implementation. All this is

what our more than 200 experts are working on at our Parsionate locations across Europe.  
Why not join the team?

## **What you can expect:**

- You will support in architectural consulting and conceptualization in the implementation of Akeneo PIM, MDM, and PXM solutions for our clients to jointly realize sustainable PXM strategies
- Defining and implementing processes, workflows, and system integrations in the areas of master data and product information management and data quality management are part of your responsibilities
- You will develop solutions for our clients' requirements on the Akeneo platform and independently or as part of a team implement them
- You will plan and conduct workshops with and for the client
- Together with the team, you will take responsibility for achieving our customers' business goals

## **Your skillset:**

- University degree (Bachelor's or Master's), for example, in Computer Science, Business Informatics, Business Engineering, or Business Administration with a focus on Computer Science, or equivalent education
- Experience as an IT consultant, software architect, or software engineer is desirable
- Ideally, experience in the introduction and integration of PIM standard software solutions such as Akeneo, as well as eCommerce systems or MAM/DAM systems
- Knowledge in one of the following technologies and areas: Symfony PHP, Elasticsearch, REST API, Data Transformation, SQL, XML, Data Onboarding & Syndication, Golden Record
- Fluent in both German and English, written and spoken
- A high degree of initiative, strong analytical and conceptual skills, communication skills, persuasiveness, and assertiveness
- Responsible, reliable, and flexible teamwork
- High quality awareness and personal commitment.
